MADDI SATEESH REDDY

MERN Developer | AI & Cybersecurity Enthusiast

Hyderabad,India | sateeshreddymaddi@gmail.com | +91 - 8639241112 | Personal Website | LeetCode

SUMMARY

Passionate Full Stack Developer with expertise in the MERN stack and a strong interest in cybersecurity and AI-powered applications. Skilled in building secure, user-friendly web applications with a problem-solving mindset. Experienced in developing interactive platforms, data visualization tools, and AI-driven solutions. Proficient in frontend and backend development, API integration, and optimizing application performance. Looking for opportunities to apply my MERN stack expertise while exploring AI and cybersecurity to create innovative and impactful solutions.

TECHNICAL SKILLS

- React Js
- Node Js
- MongoDB
- Interactive Web Design
- C++
- Git
- HTMl & CSS
- Responsive Web Design
- JavaScript

PROJECT EXPERIENCE

AI Image Generation Using DALLE 3 API

The AI Image Generation Using DALL·E 3 API project is a web-based application that allows users to generate images using OpenAI's DALL·E 3 API. Users can enter prompts to describe the image they want, select the number of images to generate, and receive AI-generated results in real-time.

Hangman Game

Developed an interactive Hangman Game using HTML, CSS, and JavaScript, allowing users to guess words based on hints while tracking incorrect guesses. Implemented a dynamic UI with a virtual keyboard, game logic, and a restart option.

Weather App

Developed a responsive Weather Dashboard using HTML, CSS, and JavaScript, allowing users to check real-time weather conditions and a 5-day forecast by entering a city name or using their current location.

EDUCATION

Joginpally B.R. Engineering College   Nov 2022 - Jul 2026(Excepted)

Major in Computer Science Engineering.
Currently my percentage is 77.7%

Vivekananda Junior College   Jul 2020 - Jun 2022

Intermediate
Completed my intermediate with 68.8%
